All goes well until Charlotte escapes, transfers her consciousness to the Internet, and begins terrorizing the American public. Charlotte's attacks have everyone on high alert - everyone except Lee Fisher, the closeted son of the US president. Lee has other things to worry about, like keeping his Secret Service detail from finding out about his crush on Nico, the eccentric, Shakespeare-obsessed new boy at school. And keeping Nico from finding out about his recent suicide attempt. And keeping himself from freaking out about all his secrets. But when attacks start happening at his school, Lee realizes he's Charlotte's next target. Even worse, Nico may be part of Charlotte's plan too. As Lee races to save himself, uncover Charlotte's plan, and figure out if he can trust Nico, he comes to a whole new understanding of what it means to be alive...and what makes life worth living.

For Australians, Kokoda is the iconic battle of World War II, yet few people know just what happened - and just what our troops achieved. In this new edition of his bestselling account of this seminal battle, Peter Fitzsimons tells the Kokoda story in a gripping, moving narrative specially adapted for teens. Conditions on the track were hellish - rain was constant, the terrain close to impassable, food and ammunition supplies were practically non-existent and the men constantly battled malaria and dysentery, as well as the enemy. Kokoda was a defining battle for Australia, in which a small force of young, ill-equipped Australians engaged a highly experienced and hitherto unstoppable Japanese force on a narrow, precarious jungle track - and defeated them.
