In 2005 author Nadia Wheatley and artist Ken Searle developed a Harmony Project with sixteen students from eight infant and primary schools in Sydney - some Muslim, some Catholic, some government schools. As well as experiencing the harmony of the natural environment, the children were encouraged to learn about harmony between the traditional owners and the land, and to find harmony in friendship and collaboration. Going Bush showcases some of the students' illustration and writing, linked together with art and design by Ken Searle and a narrative by Nadia Wheatley. But gradually, more and more students joined her, until her lone protest had sparked a worldwide student movement for action on climate change. Now, a year later, Greta is speaking to audiences of world leaders at important meetings like the United Nations Climate Conference and the World Economic Forum. She is leading the conversation on climate change and sparking worldwide conversation on how to save our planet.
